

GPA Capital also provides doctors additional “revenue enhancing” services throughout the US that includes State-of-the-Art, Cutting Edge diagnostics including Neurological - NCV & EMG, Musculoskeletal Ultrasound, Spinal Ultrasound, and Extremity Ultrasound Imaging.

Our experienced technologists conveniently provide our services at the ordering physician’s office.

All tests use the latest medical diagnostic equipment and all images and data sent to our licensed medical doctors for clinical interpretations which include Neurologists & Radiologists.

We currently perform the following testing procedures:

Primary Neurological Procedures

Nerve Conduction
 Electromyography

Secondary Procedures

Musculoskeletal Ultrasound
 Spinal Ultrasound
 Extremity Ultrasound

The ordering doctor gets the written report within 72 hours for analysis and treatment of the patient. Thus, it’s seeing the smallest anatomy clearly, making tough diagnoses accurately, being able to reach critical decisions confidently that makes GPA Capital’s imaging partner a leader in the healthcare medical diagnostics arena today!

We are approved with the following insurance companies: Aetna, Blue Cross/Blue Shield, Cigna, Empire, Humana, United, Worker’s Comp, Auto Insurance, and many others.

We have included our Certificate of Medical Necessity and supporting documents in this package which outline the patient symptoms and helps identify who is a candidate for diagnostic testing. We welcome the opportunity to service your practice and bring the benefits and convenience of diagnostic testing in your office to your patients.

If you have any further questions or would like to schedule your first test date, please contact us.

We proudly support Chiropractic, Orthopedic and Primary Care Practices, Groups and Associations
